Projects

AXA Be eLife

Nov 2019 – Present

AXA BE eLife is a very key project for AXA Belgium, located in IT Life Domain and Life Business. The objective is to develop the presales portal in order to roll out 5 commercial products which offer life insurance protection to customers. End customers and AXA internal users (e.g. underwriters) are going to use a new Customer Servicing Portal to carry out Offer Creation, Contract Creation and distributor-side medical acceptance processes along Policy Consultation & Contract Advance based on their individual privileges.

Mentor on Demand

Jul 2019 – Oct 2019

Mentor on demand is a web-based portal where user can sign up, login, search for mentor of specific course and register himself for the same. User can see and edit progress of current courses. Mentor can also see current and completed courses. Admin can block/unblock user or mentor and can add/edit courses.

Anti-Ragging Portal

Jun 2018 – Jul 2018

Anti-ragging portal is a web-based portal where user can register complaints regarding ragging in colleges. Users can either sign up and then file a complaint or he can file a complaint anonymously. User can also see the status of the complaint. Admin is responsible for changing the status of the complaint.
